An aerial photograph of a modern outdoor living space. On the left, a wooden deck features several pieces of outdoor furniture: a dark wooden sectional with light-colored cushions, a small square table, and two white lounge chairs with purple cushions. To the right of the deck is a swimming pool with clear blue water. The background consists of a lush green lawn and dense trees, with shadows cast across the grass. The text "CONNECTING WITH NATURE" is overlaid in large white letters on the right side of the image.

CONNECTING WITH NATURE

External Decking Solution

Introducing our external decking solution catalogue, featuring an array of durable and stylish options to enhance the aesthetic and functionality of your outdoor space. We offer three decking materials: WPC (Wood Plastic Composite), Hardwood, and Rebo Bamboo.

WPC

WPC decking is designed and manufactured to the highest standards, using only the finest materials and state-of-the-art technology. Our products are designed to provide you with the perfect combination of durability, performance, and aesthetic appeal, making them the ideal choice for any outdoor space.

Real Hard Wood

Hard Wood Decking Collection is a range of high-quality, solid hardwood decking options for outdoor living spaces. Each deck board is crafted from premium hardwoods, such as ipe and teak, known for their strength, durability and natural resistance to rot, decay, and insects.

Rebo

Rebo Bamboo Decking is a type of decking material made from bamboo, a fast-growing and renewable resource. Bamboo decking is known for its durability, strength, and resistance to moisture, making it a popular alternative to traditional wood decking materials.

WPC DECKING

Welcome to the Tree Ring WPC Decking product catalogue. As a leading provider of premium quality WPC decking solutions, we proudly present our latest range of innovative and stylish products. Our WPC decking is designed and manufactured to the highest standards, using only the finest materials and state-of-the-art technology. Our products are designed to provide you with the perfect combination of durability, performance, and aesthetic appeal, making them the ideal choice for any outdoor space. Whether you're looking to enhance your garden, patio, or pool area, we have a wide range of options to suit your individual requirements and preferences. So, why wait? Start browsing our pages today and discover the perfect WPC decking solution for your needs.

GREEN

This product is made up of composite wood derived from wood fibres that have been derived from processing waste and HDPE recycled polyethylene.

100% RECYCLABLE

So, it promotes the creation of green economies and respects the environment.

LEED

NATURAL collections.

ELEGANTE

The realism of the colours, the proposed finishes, and the veining with 3D wood effect ensures a contemporary aesthetic in accordance with architectural trends.

SUSTAINABLE

A durable and resistant material that can withstand various climates and atmospheric conditions.

ANTI-SLIP

Finishes with non-slip properties R10 or R11.

PRACTICAL

In particular, the stain-resistant polymer coating of the PRO & TECNO collections provides additional resistance to stains, wear & colour change, ensuring that the colour does not change over time.

An aerial photograph of a swimming pool with a wooden deck. A light blue umbrella is visible on the left side of the deck. The pool water is a vibrant blue with a tiled pattern. The text 'FLOORING SOLUTIONS FOR ALL' is overlaid in large, white, bold, sans-serif capital letters, running diagonally from the top left towards the bottom right.

FLOORING SOLUTIONS FOR ALL

REAL HARDWOOD DECKING

Introducing the Hard Wood Decking Collection, a range of high-quality, solid hardwood decking options for outdoor living spaces. Each deck board is crafted from premium hardwoods, such as ipe and teak, known for their strength, durability and natural resistance to rot, decay, and insects. The collection features a variety of colours, from warm browns to rich reddish-browns, allowing you to create a custom look that complements your home's exterior. The natural beauty of hardwood decking adds warmth and character to any outdoor space, and with proper maintenance, it can last for decades.

Each deck board is available in standard sizes, and the collection is designed to be easy to install, making it a popular choice for DIY enthusiasts and contractors. The Hard Wood Decking Collection is also responsibly sourced, ensuring our environmental impact is minimised. Whether you're looking to create a cosy outdoor space for entertaining, a tranquil oasis for relaxing, or a functional space for outdoor cooking and dining, the Hard Wood Decking Collection has something for everyone. Browse our selection today and discover the perfect hardwood decking option for your home.

HIGH DURABILITY

Timber decking requires very little maintenance. Keeping it clean and polishing/oiling the timber sporadically will keep it in tip-top shape. Cape Reed timber decking are pressure treated with a biodegradable chemical that prevents rotting and insect invasion.

ENVIRONMENTALLY FRIENDLY

Wood is a versatile raw material and the only renewable building material. Waste is virtually eliminated when making wood products and it requires much less energy-intensive methods to process into construction products.

HIGHLY VERSATILE

Timber decking has plenty of applications. It can be used around ponds, water features or pools, as walkways or bridges and provides a versatile surface under pergolas or other shading structures. It's the perfect solution to even out uneven or sloping terrain, be it a residential or commercial development. It provides a perfect place to relax with family and friends, a safe playing area for kids and a place to dine and entertain outdoors.

REBO BAMBOO DECKING

Rebo Bamboo Decking is a type of decking material made from bamboo, a fast-growing and renewable resource. Bamboo decking is known for its durability, strength, and resistance to moisture, making it a popular alternative to traditional wood decking materials. Some of the benefits of using Rebo Bamboo Decking include its eco-friendly nature, its natural beauty, and its affordability compared to other decking options. Additionally, bamboo decking is often more resistant to termite damage and warping, making it a low-maintenance option for outdoor decking projects.

ABOUT TREE RING

THE CONCEPT & DESIGN

As a flooring solution provider, Tree Ring Floors, established in 1999, provides a wide range of flooring products and services. Having built up a strong reputation for quality and innovation in the flooring industry, we utilise the latest technology and trends to maintain our customers' trust and ensure they receive professional and reliable service. As well as providing the timber and installing the project with our fitters, we have been involved in several large projects, such as the Hyatt hotel in Dubai and Aone Sports Academy, among others.

Tree Ring Floors is a company specialising in flooring. Our experts can restore existing

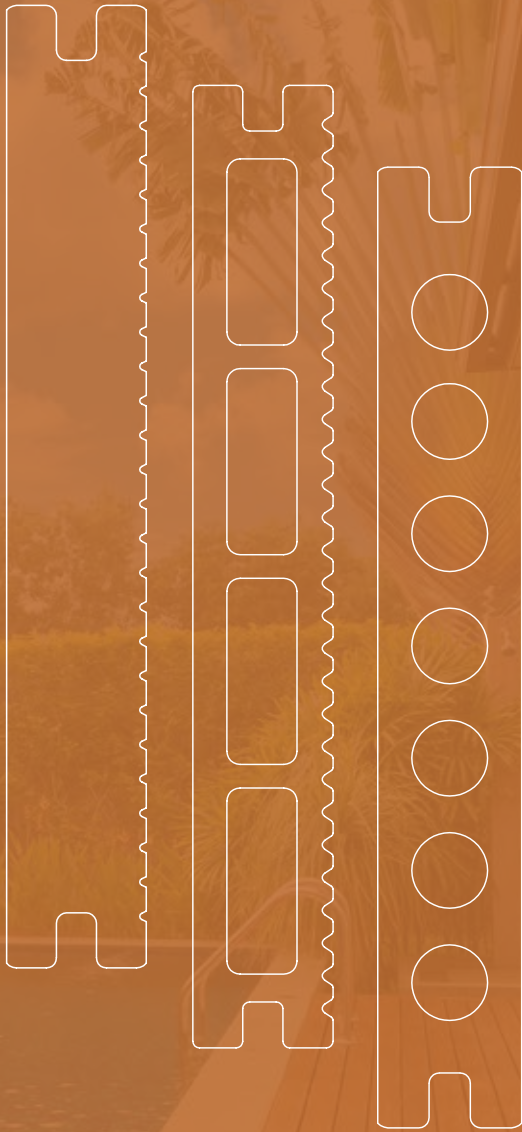

floors as well as install new ones. A leader in the design, production, and finishing of flooring, we offer Parquet flooring, Vinyl flooring, Carpet flooring, Rubber flooring, Raised access flooring, Acoustic sound solutions, Sports flooring, Outdoor Decking, Pergolas, LVT flooring, Floor Sanding, and Oiling. In addition to these, we also offer a wide range of services. We offer a limitless range of products, allowing each project to have its unique style and finish, which makes us unique.

Whether the project is for a client, architect, or interior designer, we work closely with them to ensure that the final finish is of the highest quality.
